Office hours: Tuesdays, 11–12 and 4–5 or by appointment

TA: TBD

Email: TBD

TA Sessions: TBD

Description

This course is an introduction to the field of statistics. We will study methods of collecting and analyzing data with the purpose of drawing meaningful conclusions.

Textbook

The textbook for the course is the 5th edition of *Mind on Statistics* by Utts and Heckard. I expect you to read from it throughout the semester.

Grading

The grading for this course is based on homework (10%), two midterm exams (25% each), and a cumulative final exam (40%).

Homework

Assignments can be found by clicking on “Elementary Statistics” here:

<https://felipe-a-ramirez.github.io/teaching.html>

There will be a problem set due roughly every week, due on Fridays. I encourage you to discuss with others and collaborate to arrive at solutions. But please write up your own solutions, and acknowledge your collaborators in your write-ups.

Your write-ups should be well-presented, well-written, and on time. No late homework will be accepted.

Homework will be graded on completion.

Exams dates and locations

- **First midterm:** October 22, 7–9 pm, Exley 150
- **Second midterm:** November 19, 7–9 pm, Exley 150
- **Final exam:** As set by the registrar

Math Workshop

The Math Workshop is a drop-in tutoring service staffed by experienced undergraduate and math graduate students. It provides a friendly, relaxed environment where students can get help with their math homework, ask questions, or work through challenging problems.

The Math Workshop is open at the following times and locations:

Monday–Thursday, 11:45 a.m.–1:15 p.m. — Science Library, Room 88 (basement)

Sunday–Thursday, 7:00–10:00 p.m. — “Fishbowl,” Exley Room 189

Math Jam

Math Jam will open Tuesday, September 15.

Math Jam is an additional resource, complementing professor office hours, class CA sessions, and the Math Workshop, for students in intro level math classes.

The hours and location for Math Jam for this semester are Tuesdays 6–9 pm in the Woodhead Lounge (Exley 184).

Disability accommodations

Be aware of the following statement from Wesleyan University (emphasis added):

*Wesleyan University is committed to ensuring that all qualified students with disabilities are afforded an equal opportunity to participate in and benefit from its programs and services. To receive accommodations, a student must have a documented disability as defined by Section 504 of the Rehabilitation Act of 1973 and the ADA Amendments Act of 2008, and provide documentation of the disability. **Since accommodations may require early planning and generally are not provided retroactively, please contact Disability Resources as soon as possible.** If you believe that you need accommodations for a disability, please contact Dean Patey in Disability Resources, located in North College, Room 021, or call 860/685-5581 for an appointment to discuss your needs and the process for requesting accommodations.*

If you need an accommodation, meet with me before the end of the “add/drop” period, to make arrangements.

Electronic devices

I kindly ask that you not use any electronic devices during class time.

Please be aware that parts of this syllabus might change. I will announce any changes to you in class. I will maintain a current version of the syllabus online.
